

End of June till Mid-July 2019

Castelluccio di Norcia Plain – “La Fioritura”

**Palazzo Seneca Relais & Chateaux invites you to immerse yourself
in this rare natural event !**

The Castelluccio Plateau, the center of the Sibylline Mountains National Park sets above the valley of Norcia, becomes the theatre for a singular natural event called “the Flowering”. This event consists of simultaneous blooming of dozens of different floral species that create a multicolour “rug” covering the whole of the valley.

This flower blooming does not happen on a definite date but is tentatively indicated as starting at the end of June. The arrival of summer also marks the return of flocks and herds of livestock.

Don't lose this "Miracle of Nature"!

Visit [Palazzo Seneca](http://www.palazzoseneca.com) for your stay in Norcia and enjoy this experience with us!
