Spoleto Festival of Two Worlds

The Festival of Two Worlds originated in its incomparable magnitude in 1958, thanks to the composer Gian Carlo Menotti who chose it as the ideal place to found **an event that celebrated art in all its forms**. Memorable shows were staged and the Festival soon became the appointment par excellence with cultural ferment on both sides of the ocean. **The greatest protagonists** of cinema and theatrical scenes, famous dancers and choreographers, poets, playwrights and writers, all came to Spoleto.

In its 62nd edition, the Festival of Two Worlds confirms the original intuition that made it an inimitable meeting place between culture and exhibition; from every part of the world, the great arts of the stage come together: Opera, Music, Dance, Theatre.
